## March 29, 2011 Health Care: Right or Privilege?

Since its introduction in the 1960s, Canada's publicly funded health care system has been the subject of much debate. According to Statistics Canada, most Canadians are reported to be satisfied with the health care services they receive. However, many experience long waits to see a specialist or to undergo elective surgery, or find themselves facing huge bills for prescription drugs. Should governments reconsider the way that they fund Canada's health care system? Should Canadians turn to the private sector to find solutions to the problems of the future?

### Café Scientifique:

6:00 p.m. at the Fox and Feather Pub, 283 Elgin Street.

### Café Scientifique :

18 h - Fox and Feather Pub, au 283, rue Elgin à Ottawa.

Café Scientifique is a forum where, for the price of a coffee or glass of wine, adults can get together and talk about recent - and sometimes controversial - developments in science and technology.

The Canada Science and Technology Museums Corporation moderates the discussion between invited experts and the general public. Lively discussions guaranteed!

Les Cafés scientifiques sont un forum où, pour le prix d'un café ou d'un verre de vin, des adultes peuvent explorer les développements les plus récents en sciences et en technologie.

La Société des Musées de sciences et technologies du Canada fait office de modérateur tandis que les experts et le public échangent des idées sur des sujets controversés. Discussions animées garanties! *(En anglais seulement)*
