

SCIENCE CAFÉ

Brave New World or Franken-Future? The New Science of Synthetic Biology

- Have you heard about Synthetic Biology in the news?
- Do you know what Synthetic Biology is and what it can do?
- Should you care about the benefits and risks of this technology?
- Do you want to learn more or voice your support or concerns?

Join Dr. Jon Page and Dr. Peter Phillips for an informal discussion of Synthetic Biology research in Canada and the potential societal and environmental impacts of this technology.

Lydia's Loft @ Lydia's Pub
